

A photograph of three young girls standing outdoors. The girl on the left is wearing a white sleeveless top with a yellow sunflower pattern. The girl in the middle is wearing a white long-sleeved shirt. The girl on the right is wearing a yellow tank top. They are standing in front of a wooden fence made of vertical posts and horizontal rails. The background is a clear blue sky with some green foliage.

AMG INTERNATIONAL

PERSEVERANCE PROVISION PURPOSE

2021 IMPACT REPORT

2021 WAS NOTHING LIKE MOST OF US WERE EXPECTING! WHAT WE THOUGHT WOULD BE A YEAR BEYOND COVID TURNED OUT TO BE A YEAR OF NEW VARIANTS, EDUCATIONAL STARTS AND STOPS, AND CONTINUED SUFFERING AROUND THE GLOBE. IT WAS AN IMPORTANT TIME FOR ALL OF US TO SHARE THE HOPE WE HAVE IN CHRIST, HERE AT HOME AND WITH OUR BROTHERS AND SISTERS ALL OVER THE WORLD.

COVID RELIEF

70,614

INDIVIDUALS SERVED

Thanks to AMG's faithful donors, we were able to do just that, share the hope of Jesus and meet many of the deep needs that people had this past year.

It was a year of reset in many ways, with schools reopening and AMG programs returning to some form of normalcy. While some countries opened right up, others continued with lengthy closures, like Uganda, whose schools shut down for more than two years. Some children will eventually return to school. Others, however, will choose to continue to work and have an income over pursuing their studies.

Open or closed, we found many creative ways to continue supporting children and youth and leading them to our Savior.

We also faced many challenging circumstances: Afghans fleeing for their lives to neighboring countries, a military coup that left thousands of Burmese in Myanmar without access to food and medical attention, and storms around the world that wreaked havoc on people's homes and livelihoods.

Thanks to your generous support, we were able to respond to thousands, creating an impact that will last an eternity!

IT IS SO AMAZING TO LOOK BACK AND SEE HOW GOD IS WORKING.

No matter the circumstances, He can produce incredible fruit and advance His kingdom. In 2021, as you came alongside AMG to meet people's deepest spiritual, physical, and emotional needs, our Lord used us to accomplish marvelous things.

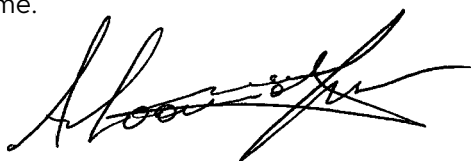

The past two years have been unpredictable, to say the least. COVID-19 disrupted everything and caused much suffering. Jobs and income were lost, more than 100 million people fell into extreme poverty, and hundreds of millions of children saw their future become bleak as schools closed. Violence and natural disasters in Haiti, Afghanistan, Guatemala, and the Philippines affected millions more. Opposition to Christianity increased in places like India.

Yet, despite all of those challenges, we saw God at work, drawing people to a saving knowledge of Him in Muslim and other countries. We saw churches planted. Children and their families are receiving help in the name of Jesus. In 2021, you provided relief for thousands of Afghans and other refugees. You made it possible to start new outreaches in Kenya and Tanzania, ministering to orphan children and training national pastors to take the gospel to their communities. Your help expanded the outreach to abused children in the Philippines, making it possible for them to find healing through the love of Christ. You provided medical care and helped drill wells to provide clean water in rural communities, transforming them for the glory of God as they also learned about the Living Water. You made all of that possible, and I am grateful for your faithful, ongoing partnership.

Your impact with the outreaches of AMG in 2021 was tremendous. But the needs are ongoing, and we must press on. Families are still suffering the consequences of COVID-19, and refugees are still fleeing violence in need of help. The gospel that can bring hope for eternity is as needed as ever.

The Lord is also opening doors in new places. Our national chaplains and teachers in Ghana are moving forward to expand our discipleship and Bible study outreach to tens of thousands of teens in public schools in Togo and Nigeria. Opportunities are there to train more pastors and spread the gospel in more areas in the Muslim world, even in restricted countries.

With your help, as you continue to make the love of Jesus known by praying for these ministries and supporting them financially, I am excited because I am confident that God will do even more incredible things this year and in the years to come.

**TASOS IOANNIDIS**

*President & CEO
AMG International*

Now to Him who is able to do far more abundantly beyond all that we ask or think, according to the power that works within us, to Him be the glory in the church and in Christ Jesus to all generations forever and ever. Amen.

EPHESIANS 3:20-21

AMG's national pastors and chaplains share the gospel with thousands of children in public schools each year in Ghana. The following is a testimony from Samuel Tettey, one of the chaplains, sharing how the Lord is at work among the children of Ghana.

WE HAVE BEEN BLESSED BY THE

Bibles and Bible study courses we received from AMG International for distribution to students at Shai D/A School. When the COVID-19 pandemic began, the government shut down all schools in the country for about a year. After the schools reopened, we were not allowed to hold school worship programs, and the spiritual lives of our students were affected.

However, even though we could not do worship programs at school, I was able to go into the classrooms and enroll students in Bible study clubs. I encouraged the students to complete the Bible study lessons at home and return the answers for grading. I started with a few students, and later, all the students came on their own to be enrolled.

All 340 students at Shai D/A School completed the Bible study courses this year and received a certificate and a Bible.

The students use the Bibles for their devotions and to read Scripture passages to their family members.

Reading and studying the Word of God has caused a change in the lives of most of our students — morally, spiritually, and academically. Through the Bible study courses, my students have been encouraged to pray for one another. Students are coming out of spiritual darkness and receiving the Light of the world.

Our students are blessed to receive God's Word in their own hands and share Scripture with their family members. Because of the Bibles I distributed at our school, teachers from other schools have contacted me, and they want Bibles and Bible study courses for their students. We aim to equip Christian teachers to see their schools as a mission field.

PROVERBS 16:9

“

I knew it was something the Lord wanted me to do. I decided right then to sponsor a child.”

ISAAC CLARKE

AMG Donor

No Giver is Too Young

MY NAME IS ISAAC CLARKE, I AM 15 YEARS OLD, and I love sports . . . more than school! I have been raised in a Christian home and heard the gospel all my life. When I was 9, I asked Jesus to be my Savior. At our church, we are involved with CEF (Child Evangelism Fellowship). I have done their summer program for teens (CYIA). The goal of this program is to go into daycare facilities, schools, and churches to teach children the gospel in a fun manner, like vacation Bible school. I have done CYIA the last three summers. I am currently teaching at an after-school Bible club at a local public school.

Our family lives on a small farm. I take care of the animals (a few cattle, three pigs, and lots of chickens). My brothers and I have a little side business doing lawn care and landscaping to earn extra money. Last weekend, we had a missionary conference at church. As I was listening to Mr. Brian Dennett, he shared how you could support a child through AMG International. I was thinking of how blessed I am to live in America and that for only \$36 a month, I could help change a child's life. After he was done speaking, I went to the AMG table to get some information. While I was standing there still thinking about whether I should do it or not, one of the elders at church (who is a good friend of mine) said, “Hey Isaac, you know supporting a child is only one lawn a month.” After he said that, I knew it was something the Lord wanted me to do. I decided right then to sponsor a child.

REUBEN AND FLORENCE MUSIIME
AMG Directors, Uganda

Persevering Through the Trials

AMG's St. Luke's Hospital opened its doors in Thessaloniki, Greece in 1975 to meet people's physical, spiritual, and emotional needs. Since then, the love of Christ is being shared in word and deed with patients and their visitors. Just last year, despite the challenges presented by COVID-19 more than 32,000 patients were admitted, and many more outpatients were treated as well. In addition to caring for the people of the region, the hospital has treated refugees, patients from neighboring countries, missionaries, and servants of God in the region, as well as AMG staff from distant countries who could not get the help they needed elsewhere. That includes Reuben Musiime, AMG's Director in Uganda, who found himself with an urgent medical need that could not be addressed easily in his native country. This is the story Reuben shared with us.

MY WIFE AND I WENT ALMOST TWO

years without visiting our children, who live in the United States. Last summer, we traveled to visit them and it was amazing! We saw all of them in their respective states — Oklahoma, Pennsylvania, and Florida. We had a wonderful time as we prayed, fellowshiped, praised God, and had family fun together. This verse was at the top of our minds all the time: "Give thanks to the Lord, for he is good, for his steadfast love endures forever!" (Psalm 107:1)

In June, I visited my doctor in Texas, and I was shocked to find out that I needed an immediate prostate examination and treatment for cancer. We turned to Psalm 55:22 and surrendered my health to the Lord. "Cast your burden on the Lord, and he will sustain you; he will never permit the righteous to be moved." My wife and I held on to this verse as we started medical tests in Oklahoma City and visited various

32,484

ADMITTED PATIENTS

28,800

SURGERIES

doctors and medical experts — this lasted for almost two months.

Visiting hospitals in the United States without medical insurance was one of the most challenging experiences. I did not have medical insurance because I live in Uganda. Whenever I was questioned about my insurance and responded that I didn't have any, the attention I was initially given would get withdrawn. Despite the setbacks at the time, I was encouraged by the thought that God is my "ultimate insurer."

As we called upon the name of the Lord, He graciously heard our cries and opened the doors for us to go to Greece for medical treatment at the AMG's St. Luke's Hospital in Thessaloniki. The AMG USA leadership showed us their love, prayers, and encouragement and helped connect us with the hospital. They also helped my wife and me quickly get the needed visas that would take us straight from the States to Greece without going back to Uganda. This was truly the provision of God.

We felt stuck at the different medical centers in the U.S. Medical tests started on September 9. My wife and I safely arrived in Greece on September 8, 2021. It felt like God had parted the Red Sea. The six-hour operation took place a few days later, on September 14. Thank God for the surgeons, led by Dr. Kampantais and others, whom God used mightily to do a very successful robotic operation.

While at St. Luke's Hospital, we were treated with an outstanding demonstration of God's love. We had never experienced such love and care in any medical facility in our lives. The nurses were very kind and warmly greeted us with smiles and prayed with us.

I thank God for my wife, who was by my side the entire experience at the hospital. After my surgery, I rested for a couple of days, and then we made our way back to Uganda on October 5. I have recovered steadily — praying, resting, and studying God's Word, grateful for the prayers of the people of God. Miraculously, the Lord provided all the expenses at the hospital.

On behalf of my family, we thank God for every one of you, our blessed prayer partners who stood with us in love, prayers, encouragement, and support during my health challenges. Special appreciation is due to Dr. and Mrs. Katsarkas, who direct St. Luke's Hospital in Greece, the chief surgeon, Dr. Kampantais, and all the medical staff who treated us with special love and care.

Our God promised never to leave nor forsake us even during the tough times when storms hit. We dedicate ourselves to continue to be at our Lord's service until He calls us home and we look forward to celebrating our 25th anniversary of AMG's ministry in Uganda, which was postponed last year due to COVID-19.

We had never experienced such love and care in any medical facility in our lives."

The Blessing of Fresh Water

YOHANES YINGO BANI

North Kodi, Southwest Sumba, NTT Province

WITH 87% OF ITS 275 MILLION people reported to be followers of Islam, Indonesia has the largest Muslim population in the world. There is a great need for the gospel, and AMG's national pastors and leaders have been using all tools available to them to proclaim the Good News throughout Indonesia. Providing wells in areas where water is scarce allows our national pastors to develop relationships in the community.

For decades our community has longed for clean water. Most areas on Sumba Island have difficulties getting clean water, we depend on rainwater. When the rainwater supply runs out, we will make holes in the trunks of banana trees to get some water. We can wash our faces with the water that collects on the trunk of the banana tree. Sometimes we have

to go to the forest to get the water collected on the taro leaves. It is a difficult situation to rely on rainwater and not have a source of clean water.

Because of AMG International's generous donors, our community now has a well. It has been a blessing to church members, the community, and the entire village population of more than 500 people. Those who do not believe in Jesus have now seen God's love for them through this well. They heard the gospel and began to show interest. We believe they will know Jesus, the Living Water. Praise the Lord! On behalf of the church members and the entire community in North Kodi, Southwest Sumba, NTT Province, we would like to thank you for the well. Thank you for giving us hope for a better future.

“

People who do not believe in Jesus have seen God's love for them through this well.”

Learning, Despite Interruptions

THE COVID-19 PANDEMIC HAS CAUSED MUCH DEVASTATION GLOBALLY, PARTICULARLY AMONG CHILDREN, AS THE FOLLOWING STORIES FROM PERU, GUATEMALA, AND HAITI ILLUSTRATE.

3,545 STUDENTS GRADUATED

3,559 STUDENTS PROFESSED FAITH

34,987 STUDENTS IMPACTED BY AMG SCHOOLS AND CENTERS

God's Provision in the Pandemic

AT BETHESDA CHILD AND YOUTH DEVELOPMENT CENTER IN

Grand-Bassin, Haiti, we had another year of seeing God's provision, mercy, and love. Despite the challenges of COVID-19, most of the children could happily finish the school year. Thanks to God, the school was only closed for a few weeks, and we did not have many COVID cases in Haiti.

Because of your generous partnership, food is provided to the kids at our schools, and our teachers get paid for their time. Without you, we would have to close the schools because the parents would not be able to give sufficient funds to run the schools and the clinics.

Two of our graduates offer their testimonies about the importance of their education:

BIOSELINE LUMA

I was orphaned when I was younger. I finished high school last year. I am in the first year of nursing school in Fort Liberte City. I am grateful to my sponsor because otherwise, I would not have finished high school. I want to say thank you to my AMG sponsor. After three years, I will be able to get a job. That will allow me to have a better future.

RICADO BENJAMIN

I have had a sponsor since I was in preschool. I finished high school three years ago. I graduated last year from Medical Lab School of Vaudreuil in Cap-Haitien, Haiti. I am grateful to my sponsor for the support. My parents passed away several years ago. I am eager to work to help myself and my two sisters. Thank you to God and thank you to my sponsor. I have hope, and I live with more confidence about my future. May the Lord continue to open doors for all of you.

HAITI

Child & Youth Development*

Hope in the Lord

WITH THE CHALLENGES OF THE PANDEMIC AND VIRTUAL

learning, our efforts have been focused on reaching the children who have little or no access to digital devices that allow them to pursue online education.

Our students receive weekly educational guides and classes through social networks in closed groups. Those who do not have access to virtual learning attend in-person classes for several hours a week in small groups. We are reaching out to families to provide homework support, resolve doubts, and share the Christian education classes.

In addition to this, we have invested significant efforts in training our teachers in technology. We have created a digital educational platform of our own, which will allow us in the coming years to continue with education in three ways, face-to-face, hybrid, and virtual. This digital platform has allowed us to adapt to the changes and challenges the pandemic has brought us and equips us to persevere through trials in the future.

Despite the troubles we endured in 2021, we have not neglected the supply of food needs, monthly grocery bags, medical care, and delivery of hygiene kits for students. We will continue to trust God's provision for 2022.

He Renews Our Strength

THE DR. SPIROS ZODHIATES CHILD AND YOUTH

Development Center in Lima, Peru, had another challenging year due to COVID-19 restrictions. In 2020, the government did not allow us to have meetings, especially with children.

We realized that our children had a significant spiritual and educational need during virtual learning. Classes were taught over the radio or television, and most children did not have direct contact with their teachers. We decided to implement new ways to help our children persevere through the pandemic. One of our teachers chose to use her house to offer classes for children ages six to nine who have not learned to read and write. We gathered them in groups of four to provide extra learning sessions.

In February 2021, we were approved to start using our child development center to give extra learning sessions. Because we could use the building, we had access to a larger space to accommodate more students.

Zalma Pandura Davila is one of our students. In 2020, she was in first grade learning to read and write. Due to the pandemic, Zalma had to watch her classes on the television, and at the end of the year, she was not efficient in reading or writing. The government directed the schools to promote all students to the next grade. In 2021, we implemented extra learning classes and Bible studies for students who were behind. Zalma never missed a class and is getting great results. In 2022 she will be ready to start third grade.

We are grateful for the opportunity to be part of the growth and development of the children in Lima.

“

We realized that our children had a significant spiritual and educational need during virtual learning.”

LUTGARDA APON

Lima, Peru*

Needed Relief for Afghan Refugees

A second round of Afghan refugee relief outreach has been completed. In round two, we have distributed food and hygiene kits to 500 refugee families. It took more than a month to complete the distribution and help these families because of government restrictions and the security situation in refugee areas.

An AMG coworker tells us, “I am thankful to AMG International for providing me with this opportunity to share the love of Christ with these persecuted Afghan families. I cannot explain how happy these families were after receiving help. In every distribution, we held a small prayer meeting for these families.”

Many Afghan women were keen to share their stories with our coworkers. Here are a few testimonies of these Afghan families.

All names have been changed to protect refugees' identities for security reasons.

Sayed

SAYED WAS A RESIDENT OF KABUL BEFORE THE

Taliban took over Afghanistan. He owned a small grocery store in Kabul and lived hand to mouth over the last year. The sales from his grocery store were not enough to provide the necessities to support his wife, two daughters, and two sons. After the Taliban took over Kabul, Sayed initially decided to remain in Afghanistan. He was in his store when several men with firearms approached, and introduced themselves as Taliban, then started looting the store. When Sayed tried to stop them, they assaulted him physically. One of the men hit him on his head with the butt of a gun, and Sayed lost consciousness. When he opened his eyes again, his store was empty — the Taliban had taken everything. It took Sayed a week to recover from the injuries and the owner of his house evicted him for not paying the rent.

Sayed did not know where to go with his wife and kids. He decided to flee to a neighboring country, and he contacted one of the human traffickers for help to illegally cross the border and help with employment and residence permits. The trafficker asked for \$600, but Sayed could not pay that. The human trafficker told Sayed that if he did not have any money, he could give one of his daughters as payment to get them across the border and be provided employment and residence permits. Sayed refused at first, but then, concerned for the safety of his family, he did not see any other option. Sadly, he sold his daughter and left Afghanistan with the rest of his family. Sayed's wife cries all the time for her daughter and misses her terribly. Pray for Sayed and his family during these difficult times.

Zahra

Najiba

AFGHANISTAN

CHILD MARRIAGE IS QUITE COMMON IN

Afghanistan and has been practiced for centuries. Zahra was only five years old when her parents sold her to her future in-laws. The future in-laws agreed on an amount and paid Zahra's parents in installments. When Zahra reached the age of 11, she was handed over to her husband. After a couple of years, she gave birth to a baby girl. Zahra cried as she told us her story. She misses her mother a lot.

Zahra and her husband fled Afghanistan after the parents of Zahra's husband were killed in a fight between Taliban and Afghan security forces. They spent many days hungry and sleepless. When they reached a neighboring country, Zahra was disappointed because there was no one to help them. They could have one meal a day, consisting of only bread. She had no contact with her parents and does not know whether they are still alive. Zahra was very thankful that AMG International provided her with food and a hygiene kit, especially milk for her baby. Zahra says she will ensure that her daughter will not suffer as she did. Pray for Zahra as we try to stay in touch with her and provide whatever support we can.

NAJIBA IS A YOUNG AFGHAN WOMAN WHO

lives in a refugee camp on the outskirts of a big city. She lived happily in Afghanistan with her son and husband before Kabul fell to the Taliban. Afterward, Najiba, her husband, and other relatives wanted to cross the border into a different country because they could not see a future in Afghanistan. As they neared the border, the Taliban stopped them from crossing. Najiba's husband asked why they would not let them go, then the Taliban beat her husband badly and took him away in a truck. They refused to let Najiba go with her husband, but they allowed her to cross the border. Najiba still does not know where her husband is. Her son is collecting trash for any items of value that he can sell to help their family. Najiba is very thankful to AMG International for its support during these challenging times. Pray for Najiba, her child, and the safe return of her husband.

23,755 REFUGEES
MINISTERED TO

REFUGEES

Greece is the entry point to Europe for refugees coming from Asia and North Africa. This has been an excellent opportunity for our coworkers in Greece to share the love of Christ and see hope restored in individuals who might never have heard the gospel if they had not been forced to flee their homes.

Welcoming Refugees in Greece

HE IS FAITHFUL. Ministering to refugees or any “people in transit” requires flexibility and listening closely to what the Lord is saying in each moment. The Bible tells us to reach out to the poor, those in distress, and “the least of these,” but it doesn’t tell us that we will always know what to do.

The last several years of refugee ministry taught us to be “all in” with whoever God puts in front of us for however long we have with them. We know in our hearts that God has a plan for these beautiful people He has brought to our doorstep, but we also feel helpless as we watch them leave Greece without knowing what happens next.

HOMESPOT WELCOMES EVERYONE. One week a Syrian couple with two small children arrived in the refugee camp near HomeSpot, our day center in Lavrio,

Greece. Slowly we started seeing them at our weekly kids’ programs, and they would come to HomeSpot for Wi-Fi, help with paperwork, and attend the adult English classes. We began to develop a deeper relationship with them. They were expecting their third child and were eager to have us in their home for meals.

As the months passed, they added a baby boy to their family, and this mother became interested in working with other women at HomeSpot, where people were taught to weave and sew. She caught on quickly and became one of the best students. As she grew relationships through work, she also developed an interest in the Bible. She brought her family to the weekly Arabic Bible study, following a 13-week evangelistic video small group series. They were also very active in attending our Sunday fellowship at CosmoVision Center — AMG’s multipurpose facility.

“

The last several years of refugee ministry taught us to be ‘all in’ with whoever God puts in front of us for however long we have with them.”

1,802

BIBLES
DISTRIBUTED
TO REFUGEES

GOD OPENS MANY DOORS. God opened the door for this family to move out of the refugee camp and into an apartment near a business that could provide part-time work for the wife, who was now very competent in weaving and sewing. Not long after they got settled, God opened another door - for their family to go to Germany. We wrestled with disappointment that they were leaving so soon, but we were also excited for their family’s next chapter.

We sent them off with our prayers. We trusted God’s provision for their life in Germany. Within weeks of their departure, a trainer from the Arabic Evangelistic study they had attended visited us at the CosmoVision Center. We found out he lives five minutes away from where this family had settled in Germany. The family began attending his church and are actively growing in their faith. A few of us traveled to Germany to watch them be baptized!

Our hearts are overwhelmed by this beautiful answer to prayer. God is the author of all these stories. He is unfolding His plan of rescue one step at a time. May we faithfully do our part.

MEDIA EVANGELISM

Over the years, our media ministry has shown the greatest return on investment in terms of reach and costs. In Indonesia alone, 3,000 people participate in our Bible correspondence courses each month. Our goal is to connect these people to local pastors and communities of believers that will help them on their spiritual journey.

12,874 MATERIALS DISTRIBUTED

ITHO SAPUTRA

Itho Saputra, who we call Putra, was a Muslim youth in Lampung, Sumatra. In early November 2021, he started listening to the Berita Hidup radio broadcast and Christian hymns. Recently, Putra accepted Jesus as his Lord and Savior.

IBU WIKUNING

Ibu Wikuning is 74 years old. She is an avid listener of the Berita Hidup radio broadcast. In October 2021, she joined a local church not far from her home. She started attending the Berita Hidup Bible courses. Mrs. Wikuning often asks what steps she can take to grow closer to the Lord at her age. We went to her home to visit with her. We prayed and gave her a Bible. She always prays for the Berita Hidup News, AMG ministry, and church planters. Her faith continues to grow.

PARTNERSHIPS

STRONG AND HEALTHY PARTNERSHIPS HAVE ALWAYS BEEN AT THE HEART OF EVERYTHING AMG DOES.

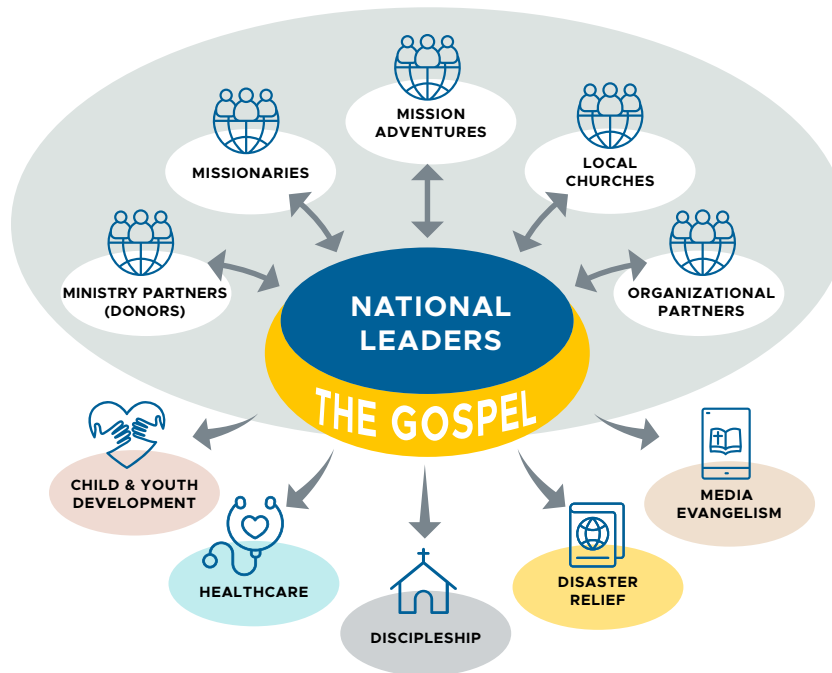

In 2021, our partnerships with you, our faithful donors, our missionaries, the thousands of local church partners in the field, and partnerships with like-minded Christian organizations helped us accomplish so much for the sake of the gospel.

There are few things more beautiful than Christians coming together, leveraging their strengths, to meet the deep spiritual and physical needs of people all over the world!

BRIAN DENNETT

*President of Engagement
AMG International*

Two are better than one, because they have a good reward for their toil.

ECCLESIASTES 4:9

AMG'S LOCAL CHURCH NETWORK IN

Thailand pushed into Myanmar to deliver life-saving food and medical supplies to the many suffering during a military coup and the effects of COVID. It was the bravery of an AMG national leader and local church members in neighboring countries of Afghanistan who met the desperate needs of Afghan refugees fleeing the country for their lives. The deep compassion of AMG's team and local church members in Guatemala came together to build homes and provide supplies for those affected by two tropical storms. Brothers and sisters coming together to show Christ's love to those around them!

OUR PRESIDENT OF ENGAGEMENT,

Brian Dennett, has been working on strengthening existing partnerships and seeking out new, like-minded partners to multiply the outcomes of our work. As a gospel-first organization, it is essential

that partners share our commitment always to be leading people to Jesus as we seek to meet their other deep needs. As an example, Brian recently joined the Board of Trustees of FCA, Fellowship of Christian Athletes, to support their joint work and find more ways and locations to be working together. FCA is the perfect example of a compatible organization with complementary skills and approaches to ministry that strengthen our work with children and youth.

OTHER EXCEPTIONAL ORGANIZATIONS,

like International Justice Mission, who work tirelessly to stop human trafficking, child abuse, and injustice, already work with AMG in several countries, and we hope for that to expand as well. With their understanding of the legal side of justice and our work on the restorative side, we are a match made in heaven!
